Develop a deeper, more positive relationship with the animals in your life and become a better person using **Animal Lessons**. They want to guide you toward the next step in your personal evolution, and this first-of-its-kind book shows you how to understand and benefit from them.

Publishers Weekly

MacKinnon, a psychic medium, blends personal stories with tips and tools aimed at helping readers discover a deeper relationship with their pets. Animals, she writes, often act as therapists, trainers, mentors, and gurus, and can offer lessons on love, patience, happiness, and gratitude.

Cheryl Richardson, author of The Art of Extreme Self Care

Danielle MacKinnon's intuition has provided such comfort to those I love and I'm happy that she's now sharing her gift with you in this book. Our connection to the animal world is significant and worthy of our attention. Animal Lessons will help you to understand your furry companions in a whole new way, and it will show you how to work with them to unlock the healing messages that can change your life.

Sherri Mandell is the author of several books and is the winner of the National Jewish Book Award. Her new book is a wonderful combination of practical advice, tools, and exercises to assist writers by giving them her personal, intimate insights into the writing process. **-The Jerusalem Post**

This thoughtful guide balances practical advice with emotional insight, without being overtaken by mystic overtones. Aspiring writers with a spiritual bent will appreciate Mandell's unique approach. **- Publishers Weekly**

Wisdom, healing, and kabbalah aside, what stood out most for me in these pages are the writing exercises. The first one I tried resulted in the freshest thing I'd written in months.
